	DESCRIBE THE R	PESENT A 10 OR	CINAL (If kne	OWD) PHYSICA	LAPPEARANCE			

The Harrison house is a 2 story gambrel with a small, 1 story A-roof wing on the west side and a 2-story A-roofed addition on the rear. The plan of the main structure is the side-hall, double-parlor type. The two exterior brick chimneys serving the parlors are massive. Marks on the brick indicate that there was a pend addition between them at one time. The windows are two-over-two with large panes. The exterior is sheathed in asbestos shingle; the roof is wood shingle. The interior has been greatly altered: the chimneys closed off and the floors covered with lineoleum.

The house may have been built as early as 1800, though the window panes are too large for that period. It stands at the top of a hill with a clear view of the surrounding countryside. One very old English Boxwood is all that remain of a large collection sold off by the previous owners of the house.
